

MIGRATORY TRIANGLES

MIGRATORY TRIANGLES

Once upon a time, there was a town where circles lived happily.

They rolled around, worked hard and created a beautiful little town.

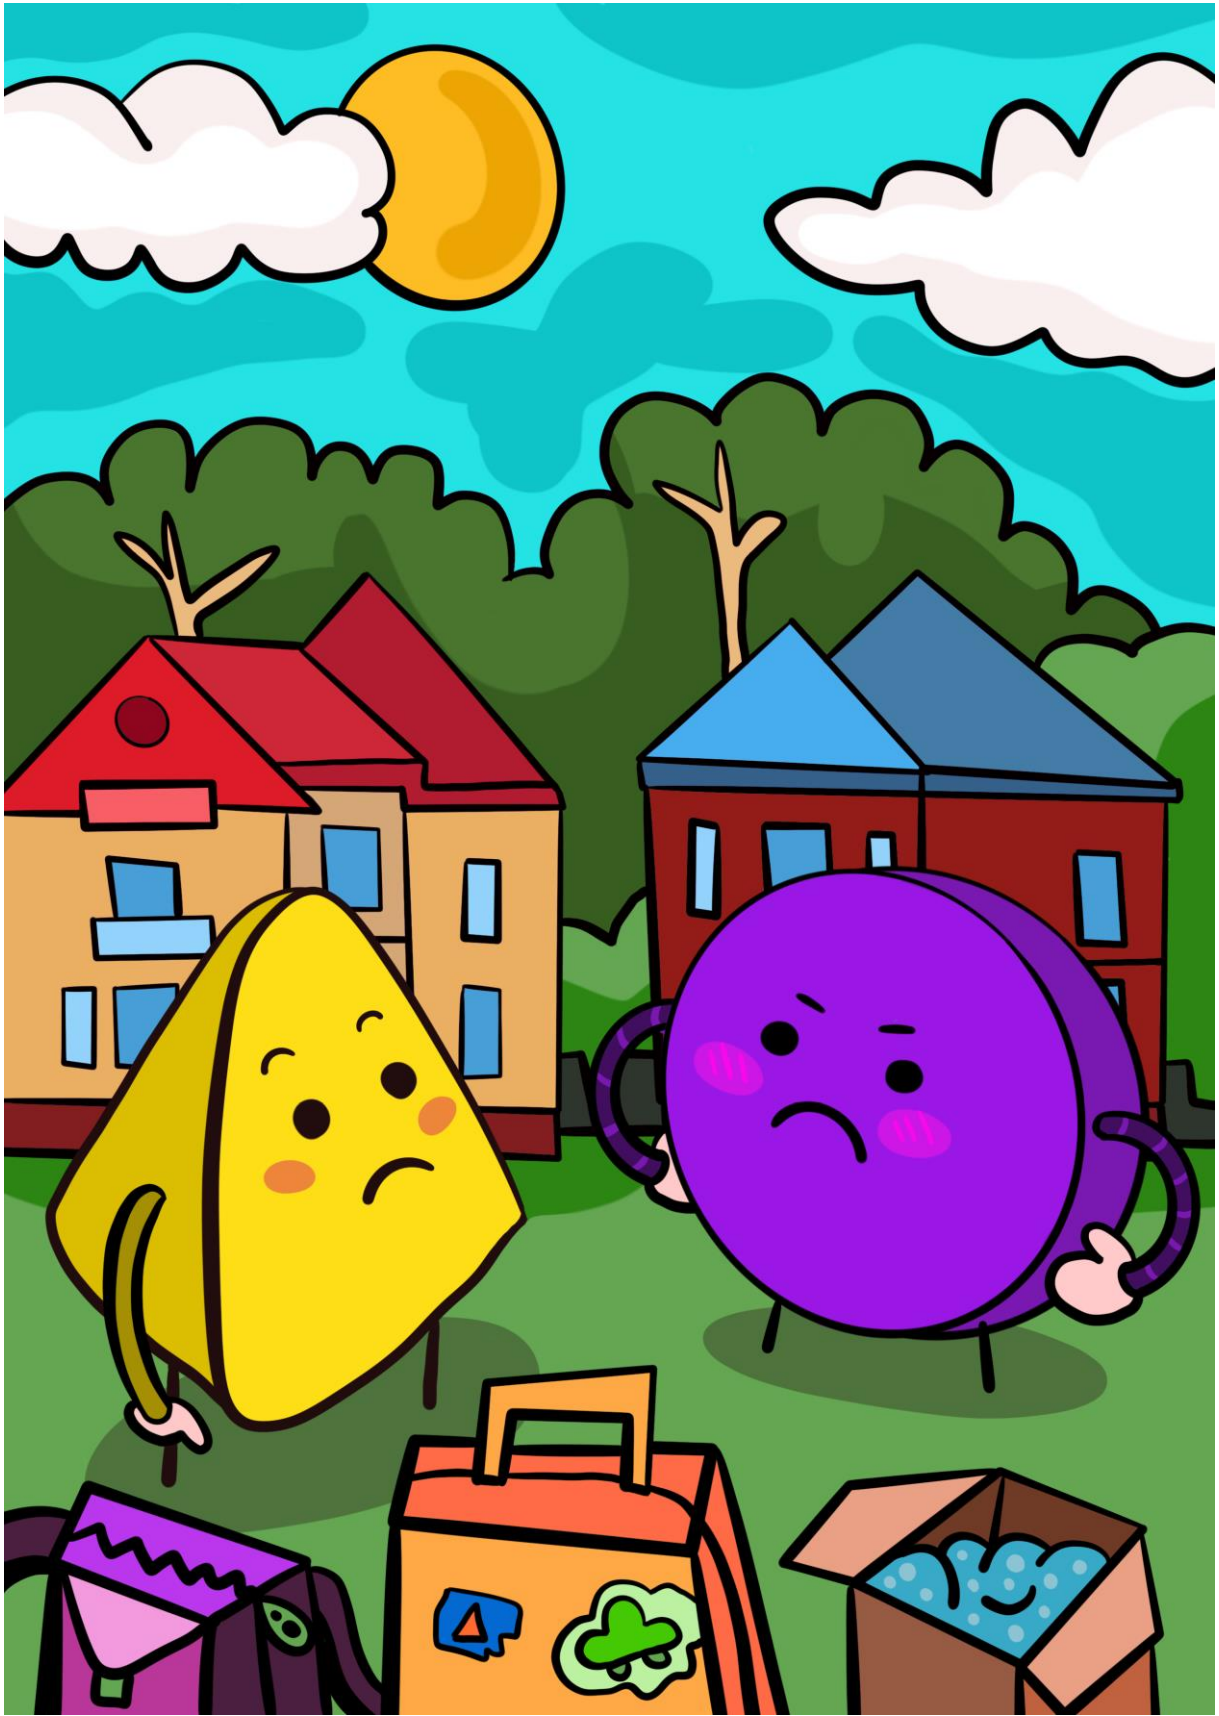

But while they lived happily, some other folks weren't quite as lucky.

Close to their town, there was a village where the triangles lived.

But triangle town was too small for all of them, so some of the triangles wanted to move to Circle town.

The triangles said, "If you let us move to your town, we can help you!"

Most of the Circles were happy to have new friends and they all cheered; "Of course you are welcome!"

But some of them weren't quite as happy. These unhappy circles said,
"They are not like us; we can't live happily side by side!"

Then the Triangles added that they could help the Circles build bigger
houses.

But still the unhappy Circles weren't quite satisfied. But all the other
Circles welcomed them.

To show their talents the Triangles started to work immediately. They
got up on each other's shoulders to make huge towers and made the
houses longer for the Circles.

All the Circles were surprised at the job the Triangles did, even the
unhappy ones. Then all of them cheered, both Circles and the
Triangles, and they started living happily side by side in their newly
made bigger houses.

So you see, kids, judging people before you know them can make you
miss their unique talents.
